Skills

- Scientific Research & Analysis
- Mathematics & Physics
- Engineering & Prototyping
- Artificial Intelligence & AI-Assisted Programming
- Problem Solving & Critical Thinking
- Digital Project Development
- Team Leadership & Coordination
- Innovation & Entrepreneurship
- Scientific Communication & Presentation

Profile

Young scientist and aspiring engineer from Burkina Faso with strong interests in mathematics, physics, AI, robotics, and emerging technologies. Passionate about developing practical projects and pursuing engineering at the intersection of mechanics, aerospace, mechatronics, and autonomous systems.

Education

Scientific Baccalaureate — Série C Oct 2024 - Jul 2027
Lycée Scientifique National de Bobo Dioulasso, Bobo-Dioulasso
Selective national science high school with an intensive curriculum focused on mathematics, physics, chemistry, biology, and computer science.

Employment

Scientific Competition Finalist Jan 2026 - Present
Bandung Creative Society / MILSET | 2026, Burkina Faso
Participated in ISTECS 2026 and IRCYS 2026, advancing to the Grand Final in ISTECS and the International Final in IRCYS. Led a 5-member team developing a gas leak prevention system for IRCYS.

Founder and President Oct 2025 - Present
Graphic Arts and Audiovisual Club, Bobo Dioulasso
Founder & President — Creative Club Founded and lead a 70+ member student community focused on audiovisual arts, graphic design, and creative projects. Coordinate productions and activities that foster creativity, critical thinking, and intellectual curiosity.

Sustainable Engineering Projects — Developer | Ongoing Jul 2025 - Present
Personal Project, Ouagadougou
Developing prototypes combining biogas production from organic waste and semi-automated vertical farming, applying principles of engineering, chemistry, biology, and automation to explore sustainable solutions for local contexts.

Digital Projects — Developer | 2026–Present Sep 2026 - Present
Personal project, Ouagadougou
Developing Passeport Carbone, a GHG assessment tool for SMEs, and designed and deployed a responsive institutional website for Collège Charles Lwanga de Nouna, using AI-assisted programming.

Certificates

International Competitions — 2026 Mar 2026
Earned certificates and advanced to the Semi-Final stage in both the International Chemistry Competition (ICC) and International Computer Science Competition (ICSC).

Certificate of Participation – Rising Youth Summit 2026 Aug 2026
Certificate of Participation Recognized participation in an international youth summit focused on leadership, innovation, and global engagement.

Languages

English	
French	
Dioula (language spoken in Burkina Faso)	

Hobbies

- Technology & Innovation
- Scientific Exploration
- Engineering Projects
- Reading & Self-Learning
- Entrepreneurship

AI Fundamentals Certificate — Heure AI

Jun 2026

Demonstrated foundational knowledge and practical understanding of artificial intelligence concepts and tools.

Projets

Collège Charles Lwanga Website	Sep 2026 - Present
Institutional Website & Digital Transformation	
Collège Charles Lwanga Website — Designed and developed a responsive institutional website to improve access to school information, using AI-assisted programming and publicly deploying the final website.	
Passeport carbone	Sep 2026 - Present
Digital GHG Assessment Tool for SMEs	
Developing a digital prototype that simplifies greenhouse gas emissions assessment for SMEs in Burkina Faso through activity-based emission calculations.	

Extracurricular activities

Founder & President, Creative Club	Oct 2025 - Present
Lycée Scientifique National de Bobo-Dioulasso, Bobo-Dioulasso	
Lead a 70+ member student community focused on audiovisual arts, graphic design, and creative projects.	
Founder, Nexoria Academy	May 2026 - Present
Nexoria Academy, Ouagadougou	
Promote practical learning and access to AI and digital tools through student-focused training initiatives.	
School Environmental Initiative	Oct 2024 - Present
High school ecology club, Bobo-Dioulasso	
Participated in environmental awareness activities, including the "1 Student, 1 Tree" initiative.	
Basketball	Oct 2024 - Present
High School Basketball Club, Bobo-Dioulasso	
Regular participation in basketball, developing teamwork, discipline, and communication	

Achievements

- Qualified and competed as a Scientific Competition Finalist at ISTECH 2026, advancing to the Grand Final through two rigorous selection rounds.
- Led the Creative Club in organizing multiple creative projects and productions, enhancing members' creativity and critical thinking skills.
- 1st in Première C — Ranked 1st among 70 students at the Lycée Scientifique National de Bobo-Dioulasso (2026).
