EDUCATION

Lycée Scientifique National de Bobo-Dioulasso (LSNB) — Bobo-Dioulasso, Burkina Faso

Scientific Baccalaureate (Bac C) - In Progress | October 2024 – Present

- Expected graduation: 2027
- Current level: Terminale C
- Class rank: 1st / 35 students in Première C
- Best annual average in Première C: 17,31/20
- Selected through the national admission process for the scientific excellence high school

Collège Charles Lwanga (CCL) - Nouna, Burkina Faso

BEPC (Brevet d'Études du Premier Cycle) | 2024

Average : 18,33

EXPERIENCE

Gas Leak Prevention Project - Co-Founder & Project Lead

Bobo-Dioulasso, Burkina Faso | 2025 - Present

- Co-led a five-student team developing a device designed to help prevent indoor gas leaks and related accidents
- Organized research, technical discussions, task distribution and project development with guidance from a Physics-Chemistry teacher
- Presented the project to representatives of the Ministry of Secondary Education and SONABHY (Burkinabè National Hydrocarbons Company)
- Selected as a finalist in ISTEC (International Science Technology and Engineering Competition) 2026 and IRCYS (International Research Competition for Youth Scientists) 2026

Passeport Carbone - Creator & Research Project Lead

Burkina Faso | 2026

- Developed a prototype for simplified monthly greenhouse-gas emissions tracking for Burkinabè SMEs
- Designed a practical approach based on activity data and emission factors to estimate emissions in kg CO₂e
- Developed the project as a research-oriented digital tool adapted to local business contexts

EXTRACURRICULAR ACTIVITIES and ENGAGEMENT

Founder – Graphic and audiovisual arts community

Lycée Scientifique National de Bobo-Dioulasso | 2025 - Present

- Created and organized a student club bringing together 70+ members around graphic design and audiovisual activities.

- Designed the initiative to encourage creativity, confidence, cultural expression and student well-being.

Scientific and Technology Projects | 2024 - Present

- Developed and explored projects including biogas production from organic waste and semi-automated vertical agriculture.
- Participated in scientific and technology competitions and collaborative research activities.

Technology and Programming | 2024 - Present

- Self-taught in web development, artificial intelligence and programming.
- Developed personal digital projects and portfolios using HTML, CSS and JavaScript.
- Uses AI-assisted development tools to accelerate learning and prototyping.

Community & Student Leadership | 2024 – Present

- Initiated collaborative projects with classmates and encouraged peers to participate in scientific, technological and creative activities.
- Contributed to a culture of teamwork, initiative and peer learning at school.

AWARDS & DISTINCTIONS

- 1st Place and Best Annual Average in Première C – 17,31/20 in Première C Class
Lycée Scientifique National de Bobo-Dioulasso, Burkina Faso | 2026
- Finalist - International Science Technology and Engineering Competition (ISTEC) 2026, organized by Bandung Creative Society/ MILSET
- Finalist - International Research Competition for Youth Scientist (IRCYS) 2026, organized by Bandung Creative Society / MILSET
- International Chemistry Competition 2026 - Semi-Finalist
- International Computer Science Competition 2026- Semi-Finalist
- Heure AI - Certificate of Completion AI Fundamentals Course, 2026

SKILLS & LANGUAGES

Technical Skills

- **Programming:** HTML, CSS, JavaScript, Python
- **Web Development:** Responsive websites, interactive web interfaces
- **Artificial Intelligence:** AI-assisted development, prompt engineering, AI fundamentals
- **Scientific & Engineering Interests:** Physics, mathematics, robotics, mechanical engineering, aerospace engineering

Soft Skills

- Leadership
- Teamwork and collaboration
- Project coordination
- Problem-solving
- Initiative & creativity
- Research and independent learning
- Communication

Languages

- **French:** Professional proficiency - C2-equivalent / native-level academic use
- **Dioula** (language spoken in Burkina Faso) : Professional proficiency
- **English:** Working proficiency - approximately B1/B2, self-assessed
